Total number of options outstanding as at 31 December 2015	36,450,000

The estimated fair value at grant date of the options granted for the period ended 31 December 2015 was between 9.0 cents and 14.0 cents per share (2014: between 16.0 cents and 22.0 cents per share). The fair value at grant date is measured using a Black-Scholes option pricing model that takes into account the exercise price, volatility of the underlying share, the expected dividend yield, the risk free rate for the term of the option, and the expected option life.

Expected volatility of approximately 60% has been estimated taking into account historic average share price volatility.

Other model input includes: exercise price of between 40.0 cents and 79.0 cents; expiry date between July 2019 and November 2020; share price at grant date of between 39.0 cents and 55.0 cents per share; a risk free rate of between 2.01% and 2.29%; and an expected life of 4 years.

9. Financial instruments

Carrying amounts versus fair values

The fair values of financial assets and financial liabilities, together with the carrying amounts in the consolidated statement of financial position, are as follows.

31 December 2015	\$'000	\$'000
	Carrying amount	Level 2 Fair value
Financial assets		
Cash and cash equivalents	14,413	14,413
Trade and other receivables	6,163	6,163
Financial liabilities		
Trade and other payables	1,590	1,590
Employee benefits	2,530	2,530
Other current liabilities	998	998

Financial instruments carried at fair value

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. Fair value are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can assess at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group recognises transfers between levels of fair value hierarchy as of the end of the reporting period which the transfer has occurred. There were no transfers between Levels of the fair value hierarchy during the six months ended 31 December 2015.

Except as noted below, the fair value measurement principles adopted in this report are consistent with those disclosed in the consolidated financial statements as at and for the year ended 30 June 2015.

Forward exchange contracts

The Group's functional currency is the Australian dollar (AUD) and it is exposed to currency risk on payments denominated in the US dollar (USD). The Group uses forward exchange contracts to hedge its currency risk, most with a maturity of less than six months from the reporting date. The currency risk relating to payments denominated in USD have been fully hedged, with the forward exchange contracts maturing on the same dates that the forecast payments are expected to occur. These contracts are designed as cash flow hedges.

Notes to the half year consolidated financial statements

for the half year ended 31 December 2015

The forward exchange contracts are not quoted in active markets as they are not traded on a recognised exchange. Instead the Group uses valuation techniques (present value techniques). These valuation techniques use both observable and unobservable market inputs. As these financial instruments use valuation techniques with unobservable inputs that are not significant to the overall valuation, these instruments are included in Level 2 of the fair value hierarchy.

Independent auditor's review report to the members of nearmap ltd

We have reviewed the accompanying half-year financial report of nearmap ltd, which comprises the consolidated statement of financial position as at 31 December 2015, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, notes 1 to 11 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the Group comprising the Company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of nearmap ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of nearmap ltd is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- (b) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
